Eden Prairie, MN 55344

To Whom It May Concern,

We used to clean our own kitchen ceilings at Applebee's but we found it so labor intensive, that it took us weeks to finish. Now we have Ceiling Pro International clean it every 7 months and what a relief. Not only is the cost about the same, but the end results are so much cleaner. They've also replaced broken ceiling tiles, missing grid work and broken light inserts. Other Applebee's use their services also.

We can always count on CPI to get the job done right and I recommend them to anyone who needs specialty cleaning.

Sincerely,

A handwritten signature in cursive script that reads "Katie B Sienko".

Katie Sienko
